### ⚙ Skills

Web Development: Javascript, HTML, CSS, React.JS

DevOps: Docker, Kubernetes, jenkins, CICD, Ansible, Puppet, Nagios, Git

Administration: Linux, Windows

Iac: Vagrant, Terraform

Cloud : AWS, Azure

### 👍 Field of Interest

Front-end Development

DevOps

Database

### 🎓 Academic Details

#### BE Electronics

K K Wagh Institute of Engineering Education and Research Center, CGPA: 8.4, 2022

#### Diploma in Electronics and Telecommunication

Guru Gobind Singh Polytechnic, 66.88%, 2019

#### SSC

Janata Vidhyalaya, 64%, 2013

### 📋 Project Details

#### Orchestrated CICD pipeline for Web Deployment

Developed a streamlined web deployment system using Golang, Python Flask, Docker, Git, and Jenkins scripted pipeline. The project is enabled Continuous Integration and Continuous Deployment for simple web application. It automatically triggered builds upon Git Commits, And updates a code at production level.

#### Monitoring System for IT Infrastructure

Developed a Nagios-based monitoring system. Implemented email notification for prompt alerts to the server admin. Leveraged Apache2 web service to provide browser based monitoring interface. And also added event handlers for specific tasks such as to run the python code after any alert get triggered by nagios server.

### 🏆 Achievements

Secured 1st prize in devops at CDAC

### 🔗 Curricular Activities

#### Extra-Curricular

Member of IETE (Institution of Electronics and Telecommunication Engineers) student forum during 2019-2022

### 🎸 Hobbies

Playing Guitar

Date : 3 Aug 2023

Place : Pune
